Webinar: ESG in Financial Markets... Buy and Hold?

Thursday 10th November 2022 at 12h00 CET

Organised by ACI Croatia & ACI Portugal

Details of Speakers

Aline Carnizelo , Portfolio Manager and Head of Quantitative Modelling, Pala Investments

Aline combines a strong sustainability background with advanced mathematics to manage Pala's absolute return derivatives portfolio which investments support energy security, metals availability, agriculture commodities and carbon credits. Aline is also Head of Risk Management for Pala Investments, overseeing both financial and operational risk for the Pala Group.

Aline has eighteen years of investment experience in emerging markets and cyclical assets classes, including portfolio management, fundamental research, big data forecasting, ESG investing, risk analysis, syndicated finance, debt restructuring, credit analysis, private and equity capital markets.

Prior to joining Pala in 2011, Aline worked at the World Bank, where she managed a portfolio of investments in the manufacturing sector and executed numerous transactions related to IFC's climate change mandate.

Before this, Aline was part of the ABN-AMRO Equity Capital Markets team, where she executed several IPOs. Aline also worked on ABN AMRO's asset & liability department as senior interest rates trader and liquidity modeler.

She began her career at Louis Dreyfus, where she was responsible for estimating commodity
